

FOR IMMEDIATE RELEASE

ImageScan to Exhibit at TEXPO 2012

LANHAM, Maryland, March 20, 2012 – ImageScan Inc., the U.S.-based, leading software solutions provider for accounts receivables management and transactional content unification, announced today it will exhibit its groundbreaking *TCM Unify*® platform and Integrated Remote Lockbox in Booth #203 at TEXPO 2012, a regional treasury management conference. The tradeshow will take place on March 25-27 at the InterContinental Hotel in Dallas, Texas.

TCM Unify achieves the first, centralized ‘Image ERP’ management capability for incoming corporate client payments. After consolidating receivables from multiple payment channels, *TCM Unify* creates structured, researchable, and actionable images for all incoming data. This platform expedites workflow and aggregates key data elements for customer service centers to eliminate the need to access multiple applications (i.e.: Lockbox, ACH, Wire Transfer, Remote Deposit, etc.) as part of the customer service experience, dramatically improving handle times and staffing needs.

Visit ImageScan at Booth #203 at TEXPO 2012.

About ImageScan Inc.

ImageScan Inc. is a U.S.-based, leading software solutions provider for accounts receivables management and transactional content unification. Founded in 1992, ImageScan is a top supplier to Tier 1 financial institutions in the U.S. and a Microsoft-certified partner. Servicing Fortune 500 customers, ImageScan offers industry-specific solutions and services to organizations within banking, healthcare, government, outsourcing, non-profit, insurance and fulfillment. By deploying solutions in a timely, non-disruptive, and cost-effective manner, ImageScan offers customers a reduced cost structure, optimized business intelligence, increased accuracy and the ability to provide differentiated services to their marketplace. With unmatched innovation and superior customer service, ImageScan’s solutions are fully scalable and operate in some of the most demanding of HIPAA, PCI and anti-fraud environments to meet customers’ evolving needs.
