

FOR IMMEDIATE RELEASE

ImageScan Implements File Integration with Top Five Bank

LANHAM, Maryland, February 26, 2013 – ImageScan Inc., a U.S.-based, leading software solutions provider for accounts receivables management and transactional content unification, announced today that it has integrated *RevenueExpress*®, its healthcare revenue cycle management solution, with the native lockbox output of a nationally-ranked, top five bank. The solution now includes automated receipt of lockbox image files and data for classification, intelligent capture, translation from EOB to 835, and secure delivery to patient accounting research portals.

“ImageScan’s automated import and classification of transaction documents from our customer’s lockbox allows MetaSource to process their healthcare payment documents more quickly and accurately,” stated Chuck Ramsburg, Vice President of Healthcare Services at MetaSource LLC. “Using this technology, we can provide portal access to document images while meeting our compliance requirements.”

While the bank receives mail and deposits checks on behalf of the medical provider, RevenueExpress receives image files from the bank lockbox for all of the checks, EOBs, insurance statements and any other correspondence related to the transaction. RevenueExpress classifies each document, performs data extraction as needed, converts EOBs into the 835 format, and redacts individual patient data. The indexed documents are delivered to the MetaSource archive, where they are researchable and viewable by the medical provider through the customer portal.

About ImageScan Inc.

ImageScan Inc. is a U.S.-based, leading software solutions provider for accounts receivables management and transactional content unification. Founded in 1992, ImageScan is a top supplier to Tier 1 financial institutions in the U.S. and a Microsoft-certified partner. Servicing Fortune 500 customers, ImageScan offers industry-specific solutions and services to organizations within banking, healthcare, government, outsourcing, non-profit, insurance and fulfillment. By deploying solutions in a timely, non-disruptive, and cost-effective manner, ImageScan offers customers a reduced cost structure, optimized business intelligence, increased accuracy and the ability to provide differentiated services to their marketplace. With unmatched innovation and superior customer service, ImageScan’s solutions are fully scalable and operate in some of the most demanding of HIPAA, PCI and anti-fraud environments to meet customers’ evolving needs.
